going to be taken from the hunter, it is going to be taken and used for the acquisition of that land and those very related costs of in lieu of payment only and that is it. Now I have another amendment to come after you establish this special fund and that amendment, Senator Marvel, and you may be interested in this, that amendment that is coming next, Senator Marvel, if the adoption of this amendment is there, is that the Game Commission will come back with a full plan to the members of the Legislature and then we will appropriate the money out of that special fund after the plan has been approved by the Legislature so that we see systematically what they are going to do, where they are going to acquire and how they are going to acquire. PRESIDENT: Any further discussion on the amendment? Senator Barnett.

SENATOR BARNETT: Senator Rasmussen, would he go over these a little bit slower.

SENATOR RASMUSSEN: Yes, I certainly will, Senator Barnett. On page 8, line 14, I would raise it from the proposed \$30 to \$40 for a deer permit. On line 15, I would change
